eSpindle Learning Inc
Attention: Ms. Rosevita Warda
P.O. Box 338
Sebastopol, CA. 95472,

Ms. Warda;

The After-School All-Stars of Greater San Jose are very excited to have the opportunity to partner with eSpindle Learning to expand our tutorial program to our targeted at-risk youth at two of our program sites. The online tutorial program will be offered at Burnett Academy and Herbert Hoover Middle School.

Burnett and Hoover both provide a full comprehensive model of programs that aligns with the 21st CCLC guidelines of 175 days of service, five days per week for three hours per day. Burnett Academy has a current enrollment of 220 students and Hoover has an enrollment of 175. Our program components include a mandatory Homework Center followed by Enrichment electives in academics, art, health & wellness, technology, & physical activity. The online tutorial program will be applied to our participants that are categorized as Below-Basics and Far Below Basics based upon their test scores. The advantages of partnering with eSpindle for our tutoring service are:

- Independent study tool
- Aligned with academic standards
- Providing personalized instruction based on the students skills and goals
- Accountability provided by performance reports
- Easy and effective

We thank you for the opportunity to partner as we work together to better serve the youth of our communities.

Sincerely,

A handwritten signature in black ink, appearing to read "John Poch", written in a cursive style.

John Poch
Executive Director
